

ANCOL®

CATALOGUE 2022/23

WELCOME TO THE 2022/23 ANCOL PRODUCT CATALOGUE

At Ancol, we are always looking to the future with innovation and opportunities to create fun new accessories for our pets and 2022/23 is no exception.

This year, we are excited to introduce The Soho Pet Collection creating a fun and fashionable new wardrobe of 10 different designs with matching reversible harnesses, collars, leads and other accessories. We also have our fabulous new Pawty Time collection with toys and other fabulous matching accessories to help you celebrate your pets key milestones and we are also launching our Little Stinkers range of shampoo bars and scented gloss sprays with new fresh fragrances. Other highlights include expanding our comprehensive toy offer with new additions from Jawables, Heritage, Viva, Small Bite, Extreme and Made From ranges, as well as the long awaited Viva coats and new cat collars, toys and beds.

In terms of the environment, we proudly introduced our beloved Made From range two years ago and this has evolved into a much broader range in response to consumer expectations. In fact, we expect that the philosophy behind Made From will become our standard range in a few years' time, every new item we develop the first question we ask is "how can we make this as environmentally friendly?" We truly are trying to "do our bit" to help the planet.

We are really happy with our 2022/23 offering and hope you will be too. We love hearing your feedback so please do get in touch with any **feedback or queries, on our sales office team, at petopiaid@gmail.com.**

MODERN DAY LEATHER PRODUCTION

EST.1971

Ancol have been hand crafting leather dog collars and leads since 1971. In the early days, collars and leads were hand cut, pointed and the holes knocked in by hand, pricked ready for hand stitching and hand veined for that finishing touch, all very labour intensive and very time consuming.

As demand quickly increased, extra thought was urgently required and stage by stage, modern machinery was installed and processes evolved to where we are today, but never losing focus on the hand crafted, quality finish that has always been our goal.

The leather is still sourced from our trusted suppliers, the same suppliers since 1971!

We insist on vegetable tanned leather without any of the nasty chemicals often found in imported collars and leads and chemicals often banned in Europe. All our leather is sourced from northern European cattle, we are very proud of our farming standards and animal husbandry.

The traditional hand-crafted processes have been gradually replaced with modern, up-to-date machinery of the time and has evolved into a modern factory using state-of-the-art computer-controlled machines.

Machines that ensure consistent quality, ease of use for the operators and much reduced fatigue and repetitive strain, our leather cutting machine is one of the very few used worldwide for dog collar production. Our sewing machines are proven within the ultra-luxury car interior industry and produce a very good quality finished product.

Today, Ancol made products are known around the world for their quality and consistency, not so much as "hand crafted" today but certainly proudly made in Great Britain by a third generation family company.

Perfect for dogs with long coats, the nylon and chain collar sits loosely on the dog, preventing kinks in the coat. If the dog pulls, the collar will tighten so that they cannot become free. Ensure that the collar is not too tight on the dog when at it's tightest. Chain leads are ideal for dogs that may be tempted to chew the lead. All of our chain is welded and polished for superior strength.

The Ancol Happy at Heel Harness and lead set is a training aid that helps you to train your dog to walk at the heel without pulling on the lead. Designed by our friends at PURE dog listeners the pack comes with a harness, long lead, instructions and a DVD to equip you with the skills to help your dog learn good habits on the lead. The clever design means a pulling dog is turned around to face their owner.

At Ancol we care for the environment. That's why our training range has undergone a makeover, and now uses much less plastic in its packaging. From bungee couplers to muzzles and training leads, the benefits of each product and comprehensive instructions on using them are included on-pack to help customers feel confident when them.

We use EPI, a special additive in these poop bags. This converts the plastic into a degradable material meaning that in the presence of oxygen, these bags will biodegrade leaving only biomass, CO2, and water. Our bags can go to landfill but are not designed to biodegrade with out the use of oxygen.

GROOMING RANGE

DESIGNED BY PROFESSIONALS

SMOOTH COAT

Smooth coats are sleek and shiny. Brushing to remove dirt and loose fur keeps this coat in tip-top condition.

DOG BREEDS

- Boxer
- Dalmation
- Dachshund
- Boston Terrier
- Greyhound
- Great Dane
- Chihuahua
- Beagle

SHORT/MEDIUM COAT

Short and medium coats are easy to groom but during moulting can shed masses of hair. Daily grooming during periods of moulting is ideal.

DOG BREEDS

- Labrador
- Jack Russell
- Akita
- German Short Haired Pointer
- Border Collie
- Golden Retriever
- King Charles Spaniel

SILKY COAT

Silky coats are characterised by long, flowing hair, which should be regularly and carefully groomed to prevent tangles and mats.

DOG BREEDS

- Cocker Spaniel
- Irish Setter
- Yorkshire Terrier
- Afghan
- Silky Terrier

LONG HAIR COAT

Long coats tend to be thick as well as long, meaning tangles and mats are likely. Thinning long-haired coats can help them look neat.

DOG BREEDS

- Border Collie
- Old English Sheepdog
- German Shephard
- Maltese
- Lhasa Apso

WIRY COAT

Wiry coats are unique and don't shed. The coat can become rough to the touch; keeping the coat trimmed will make it softer.

DOG BREEDS

- Airedale
- West Highland White
- Border Terrier
- Fox Terrier
- Lakeland Terrier
- Wire Haired Pointer

CURLY/WAVY COAT

Curly and wavy coats are notorious for matting and knots as the hair curls back on itself. Daily combing helps to keep the coat free of tangles.

DOG BREEDS

- Poodle
- Portugese Waterdog
- Tibetan Terrier
- Bichon
- Irish Water Spaniel
- Curly Coated Retriever
- Bedlington

AN EXCITING UPDATE FOR ANCOL PET BEDS

It is important for us to ensure that our production process is as simple and environmentally effective as possible at Ancol. That's why we are proud to announce that we have a new state of the art fibre filling line. Our new machine will allow us to blow, fill and pack our beds here in the UK.

Our fibre filling line breaks down compacted bales of fibre, rakes and aerates these fibres to create soft comfortable fibres. These fibres are then filled into our Dog Beds/Cushions and Mattresses to ensure your pet is always comfortable.

All of our UK-designed beds are now filled on-site by our dedicated team in Walsall, using 100% recycled fibre, highlighting our commitment to the environment.
