CARNILOVE DOG
HOLISTIC HIGH QUALITY DOG FOOD

**GRAIN-FREE & POTATO-FREE
WILD ORIGIN MEATS 70%
FOREST FRUITS, VEGGIES & HERBS 30%**

We've designed Carnilove with careful consideration for the historical continuity of cohabitation between dogs and humans. The ingredients and their proportions have been developed according to the diet of dogs prior to the advent of agriculture, but production is based on the latest processes and technologies.

Carnilove has been formulated with respect for the natural origins of dogs. The wide spectrum of carefully selected **wild-origin meats**, such as reindeer, duck, pheasant, turkey, lamb, wild boar, salmon, and new FRESH MEAT formulas such as Carp, Trout, Ostrich, Rabbit, and Chicken, **corresponds to the composition of natural prey** and ensures intake of important amino acids. **Forest fruits, vegetables, wild berries, and herbs** are natural sources of important vitamins, antioxidants, and other essential nutrients.

kg 1.5 kg, 4 kg, 12 kg

Salmon & Turkey

Carnilove Puppy Salmon & Turkey has been formulated with respect for the special needs of puppies to ensure healthy growth.

Salmon is an excellent source of highly digestible proteins as well as omega-3 unsaturated fatty acids, which have a positive impact on mental development, the cardiovascular system, and metabolism (they reduce blood sugar levels). It also positively affects the quality and appearance of hair and skin.

Turkey is rich in digestible proteins and has high levels of trace elements, such as zinc, and also contains vitamins B3 and B6, which are critical for proper brain function, good muscle tone, and healthy growth.

kg 1.5 kg, 4 kg, 12 kg

Lamb & Wild Boar

Carnilove Adult Lamb & Wild Boar has been formulated with respect for the special needs of adult dogs to provide them with balanced nutrition for optimal physical condition and a healthy immune system.

Lamb and wild boar are the perfect combination of quality, highly digestible, usable proteins rich in natural nutrients.

Lamb is an excellent source of trace elements such as selenium, iron, zinc, B vitamins, and unsaturated fats, while wild boar is packed with proteins yet contains little fat, making it ideal for maintaining optimum physical condition without the risk of increased blood cholesterol levels.

Salmon & Turkey

Carnilove Large Breed Puppy Salmon & Turkey has been formulated with respect for the special needs of large breed puppies to provide them with a diet rich in essential nutrients, proteins, and fat for proper growth and healthy cartilage.

Salmon is an excellent source of highly digestible proteins as well as omega-3 unsaturated fatty acids, which have a positive impact on mental development, the cardiovascular system, and metabolism (they reduce blood sugar levels). It also positively affects the quality and appearance of hair and skin.

Turkey is rich in digestible proteins and has high levels of trace elements, such as zinc, and also contains vitamins B3 and B6, which are critical for proper brain function, good muscle tone, and healthy growth.

kg 1.5 kg, 4 kg, 12 kg

Duck & Pheasant

Carnilove Adult Duck & Pheasant has been formulated with respect for the special needs of adult dogs to provide them with balanced nutrition for strong bones, healthy joints, and maintenance of normal blood pressure.

Duck is an ideal source of proteins and is rich in polyunsaturated fatty acids (PUFA), which reduce blood cholesterol levels. It's a fantastic source of niacin (vitamin B3), which plays an important role in metabolic processes within the body and also helps to lower blood cholesterol levels. Duck contains vitamins A and C as well as important minerals such as iron, calcium, and selenium, while pheasant is an excellent source of vitamin B12, phosphor, and selenium. The combination of duck and pheasant creates a dietetically balanced and nutritious food containing all the essential amino acids.

kg 1.5 kg, 12 kg

Reindeer

Carnilove Adult Reindeer has been formulated with respect for the special needs of adult dogs to provide them with balanced nutrition for optimal physical condition and cardiovascular health.

Reindeer meat has unique properties. It is one of the best sources of digestible proteins and has a favorable composition of amino acids. Because reindeer live on wild berries, the meat is exceptionally rich in natural antioxidants and contains little fat, but the fat it does contain is unsaturated and very beneficial.

The content of omega-3 unsaturated fatty acids in reindeer meat is similar to that of fish.

Salmon

Carnilove Adult Salmon has been formulated with respect for the special needs of adult dogs to provide them with balanced nutrition for a healthy and shiny coat and proper nervous system function.

Salmon is a good source of highly digestible proteins.

It's easy to digest and has anti-inflammatory properties. It is also rich in omega-3 unsaturated fatty acids, which have a positive impact on mental development, the cardiovascular system, and metabolism (they reduce blood sugar levels).

In addition to helping prevent degenerative eye disorders, salmon and its fat improve the quality and appearance of hair and skin.

Salmon & Turkey

Carnilove Adult Salmon & Turkey has been formulated with respect for the special needs of adult dogs of large breeds to provide them with a balanced formula for strong bones and healthy muscles, joints, and tendons.

Salmon is an excellent source of highly digestible proteins as well as omega-3 unsaturated fatty acids, which have a positive impact on mental development, the cardiovascular system, and metabolism (they reduce blood sugar levels).

It also positively affects the quality and appearance of hair and skin.

Turkey is rich in digestible proteins and has high levels of trace elements, such as zinc, and also contains vitamins B3 and B6, which are critical for proper brain function, good muscle tone, and cardiovascular health.

FRESH MEAT

HIGH-QUALITY HOLISTIC DOG FOOD

Fresh Meat

**GRAIN-FREE & POTATO-FREE
WILD ORIGIN MEATS 80%
FOREST FRUITS, VEGGIES & HERBS 20%**

Carnilove Fresh Meat are unique new formulas that provide your dog with balanced nutrition rich in fresh meat together with a variety of vegetables, berries, and herbs for a wilder and even more natural way of eating.

Let your dog return to the wild forests and live the life of real hunter just like his ancestor, the wolf, whose diet primarily comprised fresh meat obtained from prey and carbohydrates from forests and green meadows.

Returning to a natural diet ensures optimal nutrition absorption, improves digestion, helps maintain excellent physical condition, protects the cardiovascular system, nourishes dry skin, and ensures a healthy, shiny coat.

kg 1.5 Kg, 12 Kg

Fresh Carp & Trout

Carnilove Fresh Carp & Trout has been formulated with respect for the laws of nature and provides your canine buddy with balanced nutrition rich in fresh fish and seafood combined with a variety of vegetables, berries, and herbs. Returning to a natural diet helps maintain optimal physical condition, protects the cardiovascular system, nourishes dry skin, and ensures a healthy, shiny coat. Carp has a unique composition of proteins that are easily digestible due to shorter muscle fibres. The combination of carp and trout is a natural source of essential omega-3 fatty acids, which are highly beneficial to the quality of the skin and coat. The presence of DHA and EPA boost the positive effect of this special protein combination.

kg 1.5 Kg, 12 Kg

Fresh Chicken & Rabbit

Carnilove Fresh Chicken & Rabbit has been formulated with respect for the laws of nature and provides your canine buddy with balanced nutrition rich in fresh meat combined with a variety of vegetables, berries, and herbs. Returning to a natural diet improves digestion and supports proper growth of muscles and cartilage. Mussel extracts ensure strong bones and healthy joints. Chicken is a great source of essential amino acids and minerals. Its high protein content ensures proper development of all tissues and, in combination with easily digestible protein from rabbit meat, it makes this recipe unique and highly suitable for any carnivore. Rabbit meat is also very low in fat, which means it's exceptionally lean.

Fresh Ostrich & Lamb

Formulated with respect for the laws of nature and your little canine buddy's special needs, Carnilove Fresh Ostrich & Lamb provides balanced nutrition rich in fresh meat combined with a variety of vegetables, berries, and herbs.

Returning to a natural diet ensures optimal nutrient absorption and excellent digestion, both of which help keep small breed dogs in top physical condition. Ostrich is low in fat and cholesterol but rich in protein, which makes it an excellent source of energy and amino acids for small dogs and their special needs. Moreover, ostrich is known as a healthier red meat with high palatability, and in combination with lamb it's an ideal source of hypoallergenic protein.

Salmon with blueberries for puppies

Highly digestible and nutritious salmon supports digestive tract health and optimal condition. Omega-3 fatty acids support the skin, heart, brain, and joints and promote healthy physical development. The properties of blueberries protect against urinary tract infections and also support brain development and function.

ITEM NAME	PCS IN MASTER CARTON	PCS IN PALLET	EAN CODE
CARNILOVE WILD-ORIGIN PIECES IN PÂTÉ SALMON WITH BLUEBERRIES 300 G	12	1404	

kg 300 g

Wild boar with rosehips

Highly digestible wild boar supports muscle development. Because the meat is very low in fat and cholesterol, it promotes optimal condition, including a healthy heart and circulatory system. Rosehips reduce blood glucose levels and also have anti-inflammatory properties, which help maintain healthy digestion and skin. The antioxidative properties support heart and circulatory health.
